

A BUYER PROFILE

Evergreen Capital for Selective Acquisition

BUILDING SYSTEMS FOR ENDURING VALUE

Xecuit Holdings LLC is an acquisition-focused holding company executing a long-duration investment strategy centered on building integrated business ecosystems across targeted sectors.

The firm operates as a principal investor, acquiring controlling or significant ownership positions in profitable, growth-stage businesses and scaling them through structured operational and strategic integration.

Xecuit combines disciplined underwriting with a data-driven execution model to identify, acquire, and expand platform businesses with the objective of creating durable, multi-asset value.

STRATEGIC OVERVIEW

A long-duration investment strategy centered on building integrated business ecosystems.

Xecuit's strategy is built around the identification of platform businesses in evergreen industries, followed by the systematic development of surrounding portfolios of synergistic and complementary businesses. This model is executed through a repeatable framework:

- **Platform Identification** – Targeting strong, profitable businesses that serve as the foundation of an ecosystem within resilient, long-duration industries.
- **Strategic Expansion** – Acquiring adjacent and complementary businesses that enhance capabilities across key functions such as distribution, logistics, customer acquisition, and operations.
- **Operational Integration** – Aligning portfolio companies through shared infrastructure, data systems, and centralized capabilities to drive efficiency and scale.
- **Value Creation at the Ecosystem Level** – Generating returns through the combined performance of interconnected businesses, rather than reliance on a single asset.

This approach enables Xecuit to build scalable, defensible platforms with diversified revenue streams and embedded operational leverage.

INVESTMENT CRITERIA

Our specific acquisition mandates and strategic filters for platform development.

TRANSACTION TYPE

- Control acquisitions
- Majority or structured equity investments

TARGET PROFILE

- Profitable, growth-stage businesses
- Strong unit economics and scalable infrastructure
- Opportunities for operational enhancement and strategic expansion

SECTORS OF FOCUS

- Evergreen Platform Businesses Across Resilient Industries

GEOGRAPHY

- Primarily United States
- Select international opportunities

TRANSACTION SIZE

- Flexible mandate across middle-market opportunities
- Typical focus: \$25M to \$250M+ enterprise value

CAPITAL POSITIONING

A structured financial framework supporting institutional-grade acquisition execution.

Xecuit maintains a structured capital framework supported by established relationships across banking institutions and institutional capital providers, designed to support acquisition execution.

- Access to substantial financial capacity through multiple institutional banking and capital relationships
- Capital engagement structured within a pre-established investment mandate
- Ability to evaluate and pursue transactions without reliance on ad hoc capital sourcing at the initial stage
- Defined review and approval processes supporting efficient transaction execution

This framework positions Xecuit as a credible, well-backed buyer with the flexibility to align appropriate capital solutions to each opportunity while maintaining speed and discipline in execution.

IDEAL TARGET PROFILE

Target business characteristics and
acquisition parameters.
